seBond w/Activator

CE 1639

Self Etching Bonding System

seBond w/Activator is a light-curing, self etching, self conditioning dentine/enamel Adhesive/bonding system

Indications

• Bonding system for all Light Cure or Self Cure composites, compomers and ormoceres

• For dentine and enamel. Compatible with all prevalent products

Advantages

• Latest state of the art technology (6th generation), suitable for all prevalent composites

• Very high shear bond strength for all light or self cured restorative materials

• Easy and time saving application; Etching, priming and bonding in two steps only

• No need for etching

• Water based primer

• No post operative sensitivity

• Reliable depth of demineralization

• Long lasting restorations

Packaging

Kit1: 5ml Primer, 5 ml Bond, 5 ml Activator, 2 x 25 Micro brushes, mixing pallet
