CE 0413

Cementation of inlays, crowns, bridges and orthodontic brackets

Indications

• Cementation of inlays, crowns, bridges and orthodontic brackets
• Cement for bases under all types of filling materials
• A temporary filling or filling for teeth of doubtful prognosis

Advantages

• Long history of clinical success
• Very good adhesion
• Excellent Radiopacity
allowing ease of finding excess residual sub gingival material and discovering of marginal discrepancies
• Releases low levels of Fluoride
• Good compressive and tensile strength
• Eliminates some postoperative sensitivity
• Tolerant to mild contaminations

Contents

Powder 50g, Liquid 25ml, mixing spoon
